The Rotary Emblem

Why a wheel?

It has been the symbol of Rotary since the earliest days. The first one was designed by Chicago Rotarian Montague Bear, an engraver who drew a simple wheel with a few lines to suggest dust and motion. It was said to suggest "civilization and movement". Many clubs had some type of wheel, but in 1922 it was decided to go with a single design. In 1923 the present gear wheel with 24 cogs and 6 spokes was adopted by RI. A group of engineers advised that the gearwheel without a keyway was mechanically unsound and would not work. So they keyway was added and has been the symbol ever since.
