

This 100% Arabica coffee, organic, shade-grown, and picked by hand, serves as a sustainable source of income for 6,700 Haitian farming families. Additionally, profits from the sale of Alltech Café Citadelle go directly into Alltech's nonprofit Alltech Sustainable Haiti Project. From there, the money funds Alltech's hands-on involvement in improving a primary school in Ouanaminthe, cultivating the coffee co-ops we work with, and providing jobs at a developing Alltech production facility in Haiti.
